Build

- Authentication
- Firestore Database
- Realtime Database
- Storage
- Hosting
- Functions
- Machine Learning

Extensions

Spark Free \$0/month Upgrade

On Dec 13, 2021 the Firebase Storage team received multiple reports of object upload and preview errors from clients of several major ISPs in Korea: KT, SKT, LG U+. These ongoing errors are the result of an ISP-side domain block of firebasestorage.googleapis.com.
